WHAT WE CAN OFFER:

We offer advice and advocacy and always consider our clients' interests first. Solicitors can count on good sound professional advice and representation by our barristers.

The benefits are:-

1. All work will be attended to by counsel of the requisite level of expertise and experience.
2. Peace of mind in knowing that even if the requested counsel is unavailable at the time of booking the same clerks will provide the best alternative. If no such counsel is available then none will be offered. We do not compromise either our professional or lay clients' cases!
3. In the unavoidable case of a higher court demanding a previously booked counsel's attendance or counsel's becoming ill, solicitors will be informed accordingly as soon as this is known to us and, if available, a suitable alternative counsel will be offered, or if requested the brief will be returned.

Fees

We are able to cover both private and legally aided clients.

Naturally, fees vary according to the complexity and magnitude of the case, as well as the seniority of counsel involved. In order to avoid unforeseen increases in fees, quotations are provided on request shortly upon sight of the brief or other comprehensive relevant paperwork. ALL fees will therefore be agreed in advance.

Our concern is with our clients and if we are obtaining continuous regular work set fees for certain areas can be agreed.

Paperwork

Arrangements can be made for the return of paperwork by a particular date if specifically requested.

Clerks

A list of out of hours contact numbers will be given.

Standards

We aim to offer and maintain high professional standards at all times.

Court

Our counsel will be available to appear in courts across the country as well as European courts.
